

CELEBRATING  
**30 YEARS**  
1989-2019

---

**(Press Release)**

**Pearson Packaging Systems Appoints MD Packaging as Canadian Partner**

---

**To continue expanding its global reach, Pearson Packaging Systems forms a partnership with MD Packaging Inc. in the Canadian marketplace.**

Uxbridge, ON - MD Packaging is pleased to announce a positive change in the Canadian Automation landscape as we are now the exclusive Canadian distributor for Pearson Packaging Systems out of Spokane, WA.

Pearson Packaging Systems specializes in the design, production, integration and service of secondary packaging automation solutions. As a systems provider, Pearson offers a full line of configurable machinery to erect, pack, seal, and palletize top-loaded cartons, cases and trays.

This new partnership allows MD Packaging to continue its long legacy of providing world class automation solutions to the Canadian market with an industry leader. Focused on minimizing total cost of ownership, Pearson Packaging Systems is dedicated to a solution-driven partnership. For sixty years, a diverse set of high-volume manufacturers and distributors has relied on their engineered systems and continuous service support.

Founded in 1955 with the invention of the first automated 6-Pack Carrier Erector, Pearson Packaging continues to be privately held, guided by the vision and support of a Board of Directors comprised of numerous industry veterans.

MD Packaging has been and remains one of Canada's leading automation equipment distributors. Partnering with Pearson Packaging to serve our existing and future clients will no doubt prove to be a huge value in the Canadian marketplace. It is our clear expectation that the addition of Pearson Packaging Systems to our existing portfolio will reinforce MD Packaging's overall presence in the Canadian market and create even more value to our long-standing customer base.
