PREVENTATIVE MAINTENANCE PROGRAM

We offer extensive Preventative Maintenance Programs with optional inclusion of wear/tear parts. Our program helps prevent machine malfunctions before they happen, saving you both time and money! We essentially act as your surrogate maintenance department. Contact us today to complete an audit of your facility. Our PM programs include:

INSPECTION

- Metal Detectors – calibrations/service
- Checkweighers – calibrations/service
- X-ray – validation/radiation surveys/service
- Magnetic Pull Test

PACKAGING AUTOMATION

- Case Erectors/Sealers
- Tray Formers
- Stretch Wrappers
- Coding Systems
- Labellers
- Induction Sealers
- Printers – inc.jet and others
- Scales – calibrations/service

Unplanned downtime is costly to your business.

Benefits of MD Packaging's Preventative Maintenance Program include:

- Peace of Mind – having a regularly scheduled PM minimizes the chance that your equipment will fail and cause costly unscheduled downtime.
- Higher Operational Performance – lower downtime, allowing for greater productivity.
- Financial Efficiency – budget quarterly/yearly PM as opposed to when equipment fails.
- Increased Safety – reduced personal risk for maintenance staff.
- Ability to schedule around your plant shutdowns.
- Provide insights into the status of your equipment allowing you to make decisions on equipment prior to equipment failure.
- Extension of asset lifetime – get more out of your investment!
- Training refresher – an opportunity to increase operational knowledge.
- Flexibility – not only can we offer PM programs on the equipment we sell, but also on competitive equipment.

Our preventative

maintenance program includes:

- Inspecting, adjustments, cleaning, repairs and testing.
- Service report documenting condition of equipment and the service we conducted.
- Improvement recommendations, including recommended spare parts & notification of any obsolete parts in your equipment.
- Training on each visit.

CONSUMABLES

Our consumables division consists of Shurtape, H.B. Fuller, Sigma Stretch Film, Inc.Jet and Detectamet. We partnered with leaders in the industry to help reduce downtime and increase plantwide OEE. Consumables were a natural fit for us – we already provide the equipment, service and parts - and now the consumables. We truly are your one-stop shop! Our goal is to improve your bottom line and production efficiency by providing you with a consumable product that has been constantly assessed/engineered and field tested with years of line experience. With our consumables program – we include preventative maintenance and wear/tear parts! We are happy to provide a quote for tape, glue, stretch film, ink and x-ray & metal detectable items.
