

## Wet Glue Labelling

### Maximum Availability at High Labelling Precision

Wet glue labelling has successfully carved itself a place as a resistant and high-quality piece of equipment.

- ▶ Labelling of all container conditions (dry to wet)
- ▶ Ecological, especially for the deposit return system
- ▶ Cost-effective

### There is Always Room for Improvement

- ▶ Label lengths up to 180 mm and 250 mm
- ▶ Newly constructed drive
- ▶ Solid four-legged container mound with quick fasteners
- ▶ New label pallets generation with pallet shaft
- ▶ Safe drip protection due to the integral glue tray design
- ▶ Corrosion protection and innovative aggregate sealing
- ▶ Improved maintenance and cleaning capability
