

MULTI WASHER

unlimited efficiency

engineered by
SOMENGIL

Unlimited efficiency.

Multiwasher® are high performance industrial washing machines engineered by Somengil. Developed for the most demanding tasks where wash quality and machine performance are critical success factors to your business.

Yes, it cleans.

Multiwasher's® cutting-edge technology was designed in a wash cabinet format that optimises space and achieves the best washing results.

Looks perfect. Works perfectly.

It looks like high tech engineered washing equipment, because it is. It's not just a pretty face, it's the ultimate solution to achieve the best washing results. Because perfection is not just about appearance, it's efficiency too.

Engineered to fulfill in every detail, all design elements have a purpose. Multiwasher® was designed to be ergonomic and user friendly, whilst delivering the best results.

This is perfection.

It's not just about sustainability. It's sustainability.

Save water.

Multiwasher® uses less 2/3 of water than other similar industrial washing solutions.

Save detergent.

70% less detergent necessary for a perfect wash, and completely environment-friendly.

Save space and labour.

Designed to occupy as little space as possible and at the same time create a bigger and better workspace.

Save money.

A smart energy consumption, less consumption of water and detergent, less maintenance, equals more savings.

All in. It can handle it.

No matter what you want to wash, **Multiwasher®** can handle it. From shopping carts to shopping baskets, to pans, dishes and much more. **Multiwasher®** is industry agnostic. Some of the industries we are already improving washing processes:

- › Food Processing (Meat & Fish)
- › Pastry & Bakery
- › Dairy Products
- › Retail
- › Catering
- › Logistics
- › Fruit & Vegetables
- › Pharmacy
